Release Notes

XRS2i & SRS2i *v1.4.12.17*

19 Aug 2025

New firmware for the SRS2i and XRS2i

Release date: 03/Sept/2025
Version Number: 1.4.12.17

This firmware addresses a bug that was in the 1.4.12.0 release.
Older I series stick readers that were once on firmware 1.4.11.0 that then were updated to 1.4.12.0, had the screen go white. This affected a small number of customers.

This bug.

is now fixed in the 1.4.12.17 version, stick readers that have this issue should be able to connect to Datalink PC and be updated to get this fix.
For other customers, there is no change in functionality compared to 1.4.12.0

This is only a main firmware update. The Bluetooth firmware can remain on v1.1.4.
